

## K2 4 TANDEM

Simply share your passion

Both professional and private pilots have always valued the K2 series. Regarding the K2 4 we got the following response from tandem pilots around the world: "It flies like a solo glider". To make the successful model even better, we focused on the launching properties, the weight, and the optimal mix of materials for long-term professional use.

More about K2 4 →

- LINES: 4
- CELLS: 52
- ASPECT RATIO: 5.4
- WEIGHT: 7.2 KG (SIZE S/M)
- CERTIFICATION: TANDEM

"The K2 4 is a real workhorse: robust, efficient and surprisingly durable. After a whole season of..."

— David Diez (Professional tandem pilot at Parapente Pirineos)

## FAQ

## In case of questions

What is the difference between the "legal" and "recommended" weight range?

Can I have other brands of paragliders/reserves serviced in the UP workshop?

Does UP sell directly or only through dealers/flight schools?

What material are the lines made of and why?

What warranty does UP offer on paragliders?

The entire range at a glance
